

» X20超声波花边机是一款35KHZ智能型超声波焊接机器。智能追频超声波发生器，高Q值换能器，耐磨工具头组成的超声波核心部件，不管应用于切割、焊接、缝合过程中产品平整、不起皱、效率高。整机HMI控制、速度自定义、数据存储、压力调节、花轮多样性、异常报警等功能。

» X20 ultrasonic lace machine is a 35khz intelligent ultrasonic welding machine. Intelligent follow-up ultrasonic generator, high-Q transducer, and wear-resistant tool head are composed of ultrasonic core components. No matter it is used in cutting, welding, and stitching, the product is flat, wrinkle-free, and highly efficient. Machine HMI control, speed customization, data storage, pressure adjustment, flower wheel diversity, abnormal alarm and other functions.

广泛应用于日用品、服装、玩具、食品、环保无纺布袋等行业

Widely used in daily necessities, clothing, toys, food, environmental protection non-woven bags and other industries.

适合制作

» 花边服饰、缎带、装饰产品、手帕、台布、窗帘、床罩、枕套、被套、帐篷、一次性手术衣、无纺布购物袋、非织造布等用品。

SUITABLE FOR PRODUCTION:

» Lace clothing, ribbons, decorative products, handkerchiefs, tablecloths, curtains, bedspreads, pillowcases, duvet covers, tents, disposable surgical gowns, non-woven shopping bags, non-woven fabrics and other supplies.

适用材质

» 化学合成纤维布料，或含有化纤混纺布、化学薄膜（含30%以上化纤），均可加工成所需要的产品，如Nylon布、针线布、无纺布、T/R布，特多龙布（Polyester布）、多层布，以及各种贴合而成的淋膜表覆布类薄膜纸均可适用。

APPLICABLE MATERIAL:

» Chemical synthetic fiber cloth, or containing chemical fiber blended patch, chemical film (containing more than 30% chemical fiber), can be processed into the required products, such as Nylon cloth, needle thread cloth, non-woven cloth, T/R cloth, Tedlon cloth (Polyester cloth), multi-layer cloth, and various laminated surface-coated cloth film papers are applicable.

花轮应用案例展示(可定制)

Flower wheel applications (customizable)
